

Dear Sir / Madam;

The SCHOOL OF ART 12 INDUSTRIAL DESIGN (EADDI) is a dynamic and public institution that was established in 1984 as an Experimental School of Industrial Design, reporting to the Ministry of Education and Sciences.

The academic results have been recognized, as Higher Technical studies in Plastic Arts and Design as post-secondary education level (MECES). We give three professional programs in the family of industrial design through it's multidisciplinary nature: model making design, muck-ups and furniture design.

Our study program has a total duration of four semesters and 1710 h, combining practical and theoretical training included practice periods at different companies according to the current requirements of the professional development.

Teachers staff involved in EADDI have led successful cooperation experiences. We have being invited to many competitions and shows and to participate on the organization of training courses for teachers and professionals.

We are very interested in your institution and would like to share good practice and if possible, to study the possibility to create a student and teacher exchange program. We are interested in:

SMS Student mobility for studies.
ST Staff mobility (STA, STT)

If you would like to cooperate please contact with us:

Adress:

Escuela de Arte 12 Diseño Industrial.
c/ Mauricio Legendre 59 28046 Madrid
